

# PEOPLE SOUP: CREATURE FREAKSHOW

**The People Soup ‘Creature Freakshow’ is a creative buffet for authors / creators who have unique characters and new worlds floating around in their minds.**

This practical course activates participants through imaginative exercises which bring new realities into being. Establishing the world through words, the stories are then fleshed out through voices, physicality and crafting costumes & puppets. There is also an extension to the course which delivers the stories over into the digital realm by generating animation and video game content.

Bravo Child is a poetic philosopher, master improviser, actor, performance artist and game designer who has travelled Australia and the world bringing change through play and social experiments.

People Soup will breathe life into the universes you imagine and provide you with a storyteller’s playground! Experiment with your character creations and then set them free in the freakshow!

The workshops cover the following areas:

- Overcoming writer’s blocks.
- Imagination at play.
- Character development.
- Creating worlds.
- The storyteller / audience relationship.
- Transmedia narratives.
